

Conheça a Databricks

A Plataforma de Dados e IA

Pedro Zanlorensi – Engenheiro de Soluções Líder

Quem sou eu?

João Pedro Zanlorensi Cardoso

- Cargo Atual:
 - Lead Scale Solutions Engineer (Databricks)
- Formação
 - Graduação em Engenharia Eletrônica (UTFPR)
 - Mestrado em Engenharia de Computação (UTFPR)

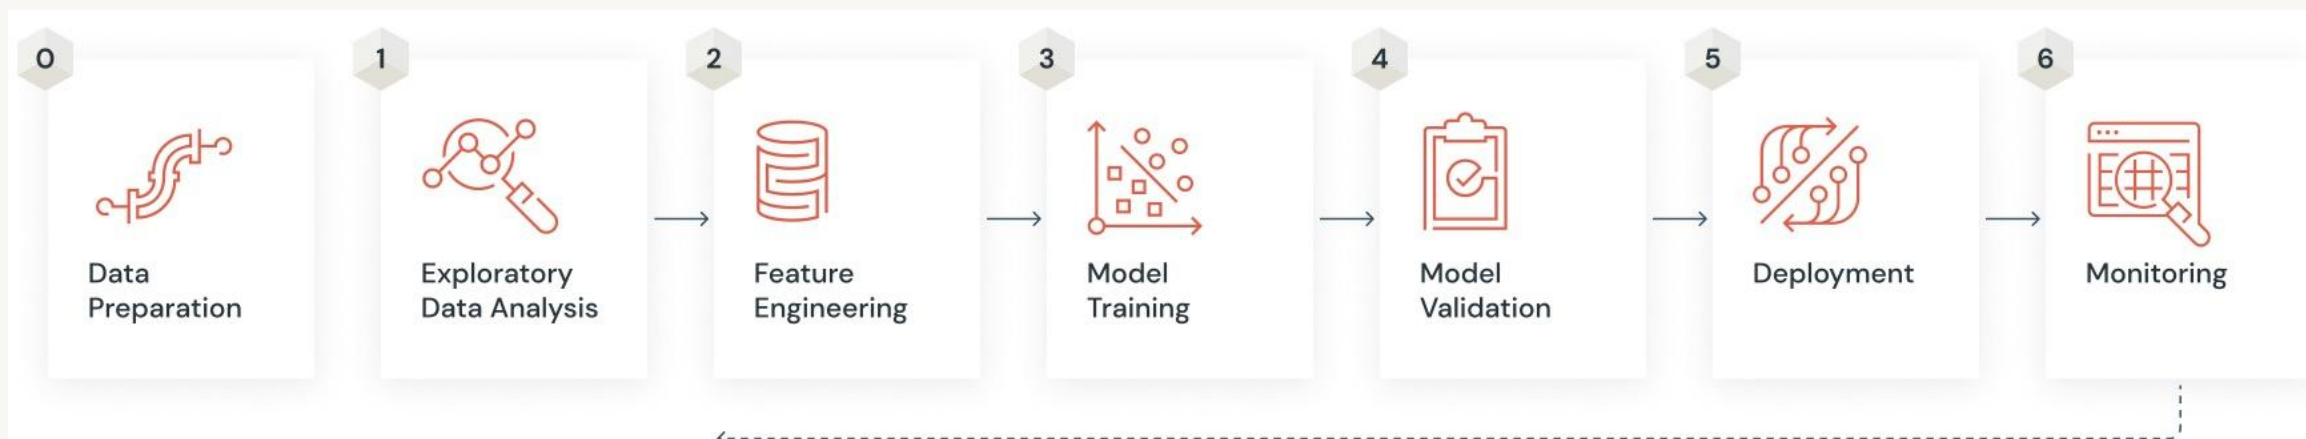

Agenda de hoje

- Carreiras em Dados
 - O que é a Databricks?
 - História e números
 - Presença no Brasil
 - Cursos e certificados gratuitos
-
- Como eu posso experimentar?
 - Databricks Free Edition
 - Demonstração ao vivo
 - Perguntas e respostas

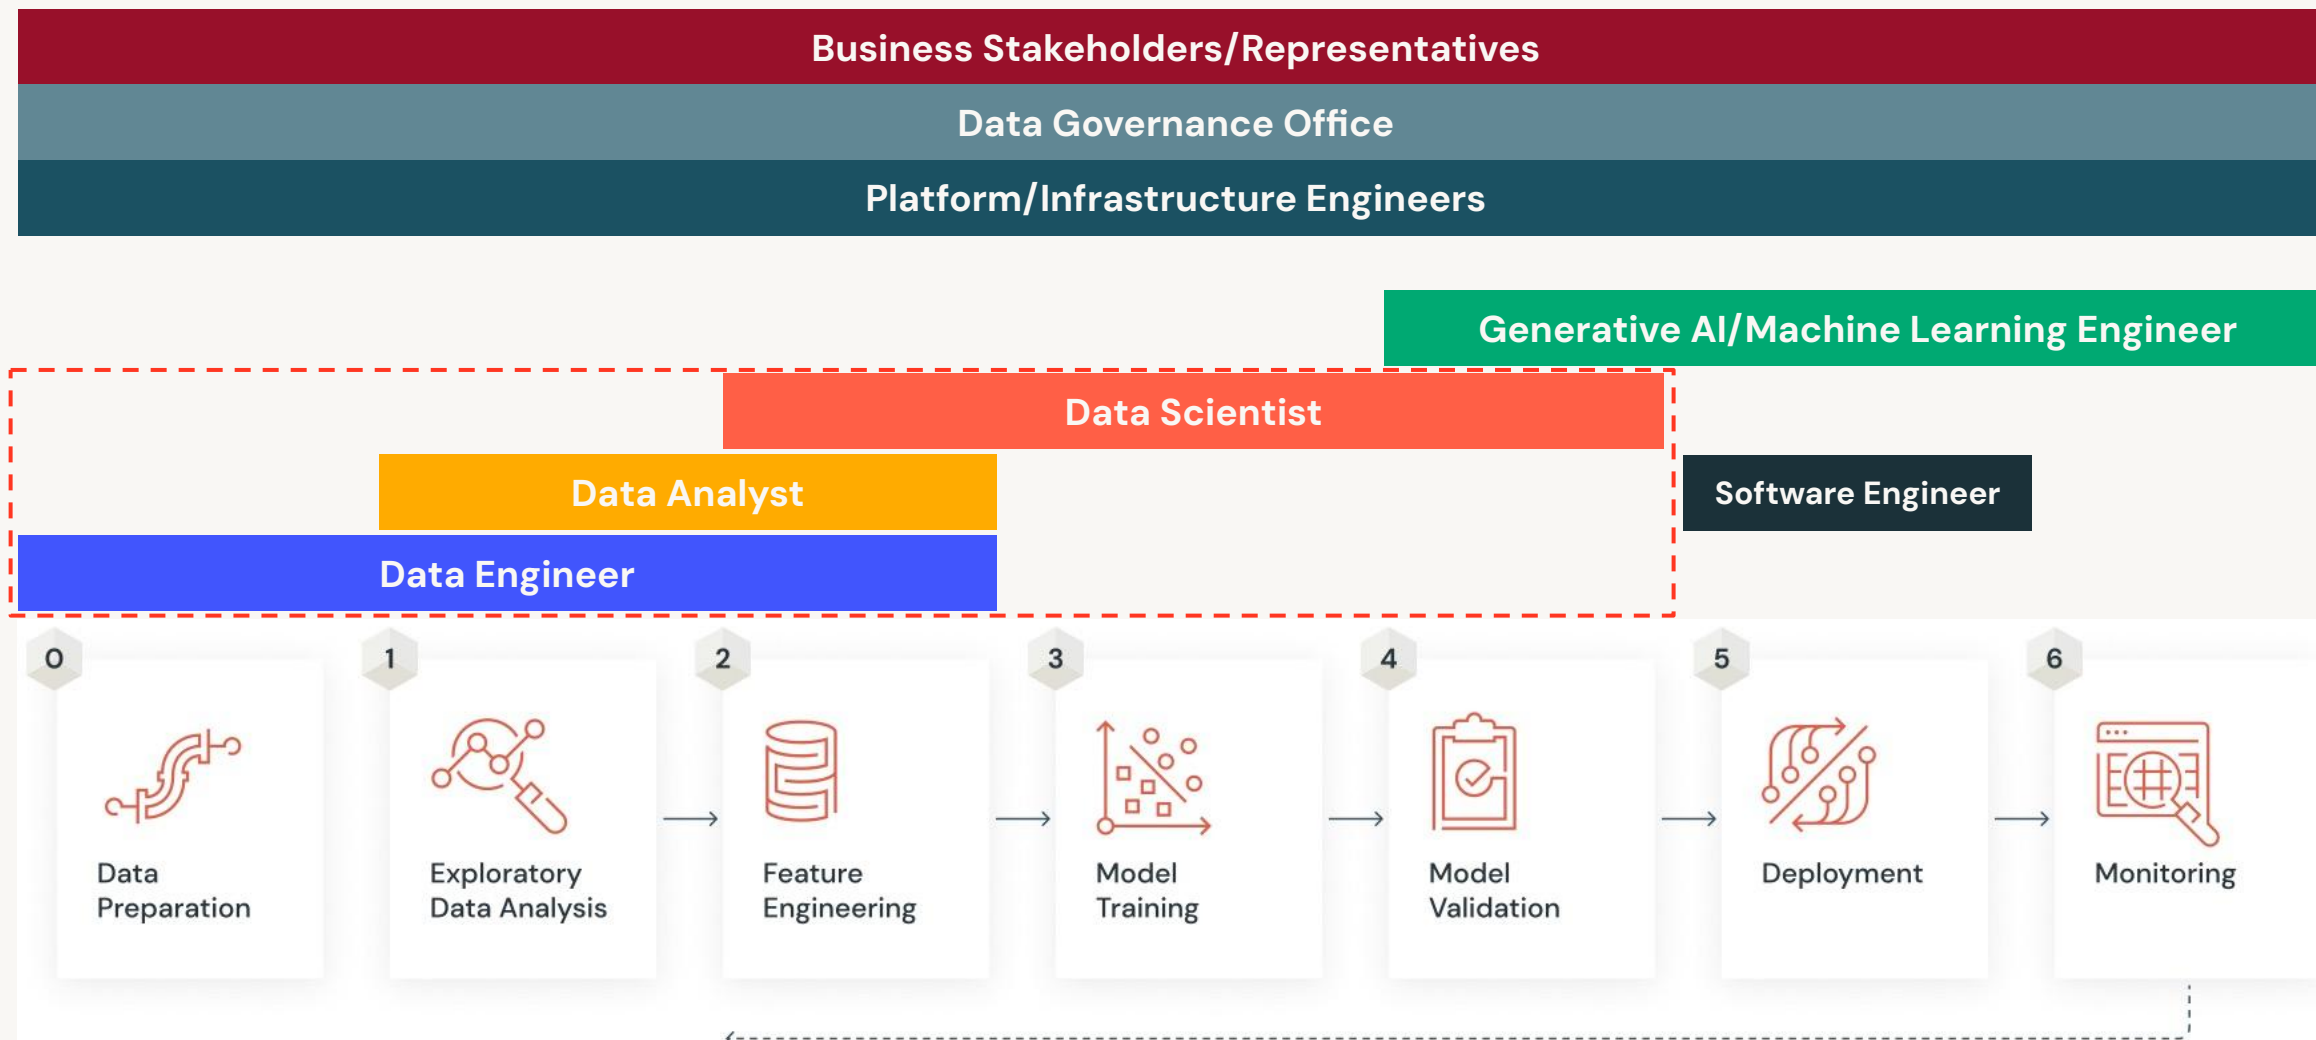

Carreiras em Dados

A "esteira" de dados

A "esteira" de dados – há muitas pessoas envolvidas nesse processo!

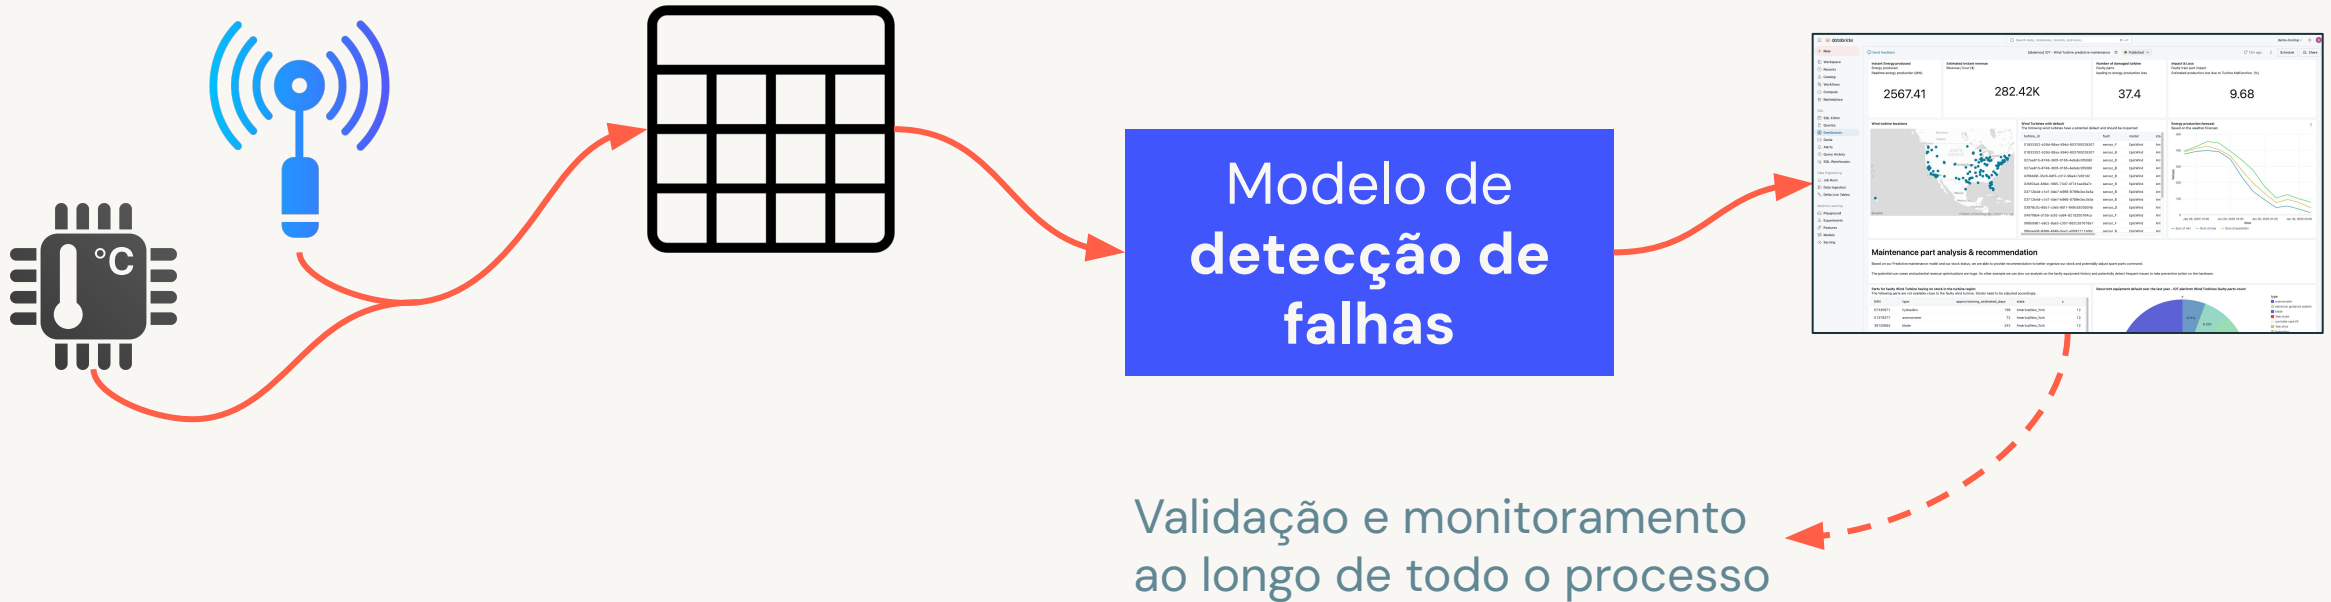

Exemplo prático – Empresa do ramo industrial

UNITY CATALOG – GOVERNANÇA

Sensores em múltiplos equipamentos, dados de especificação

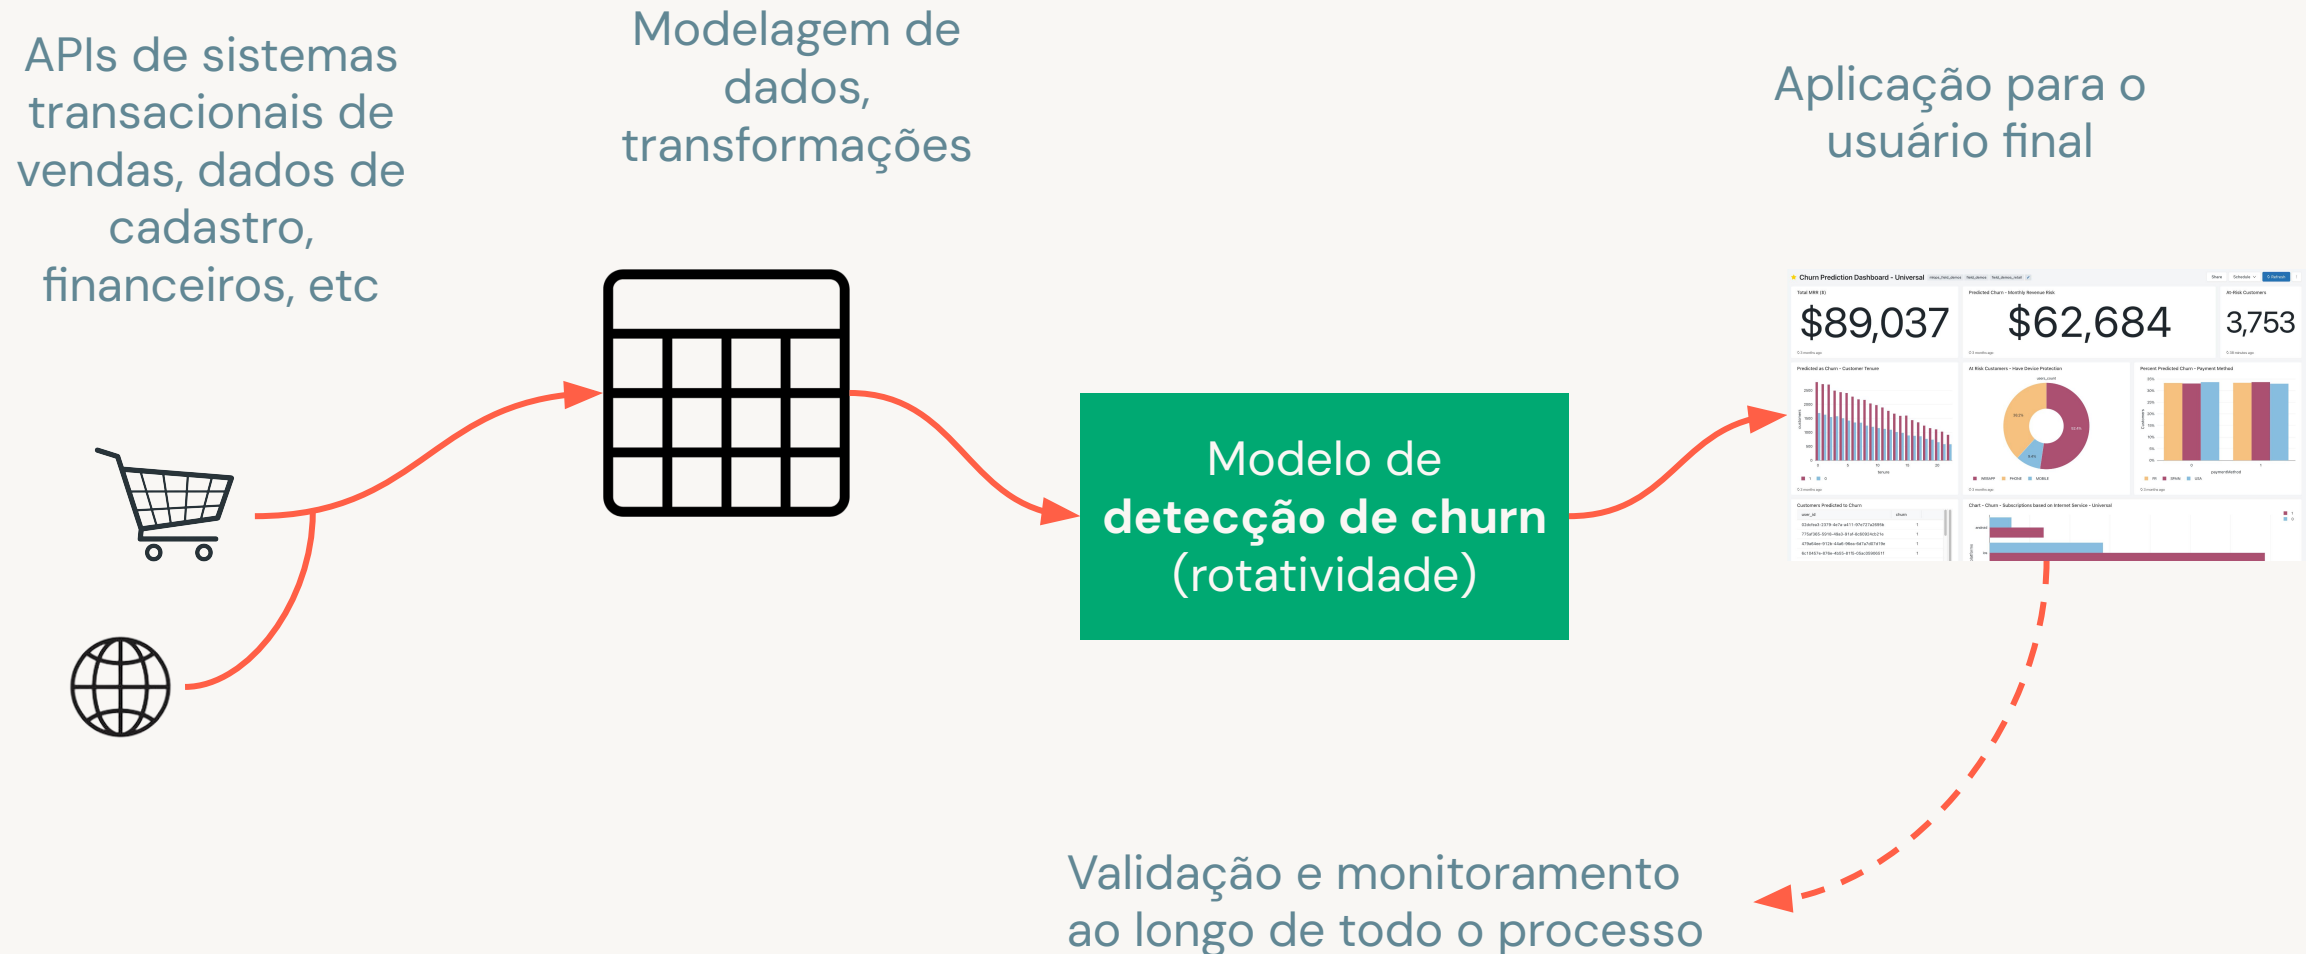

Modelagem de dados, transformações

Aplicação para o usuário final

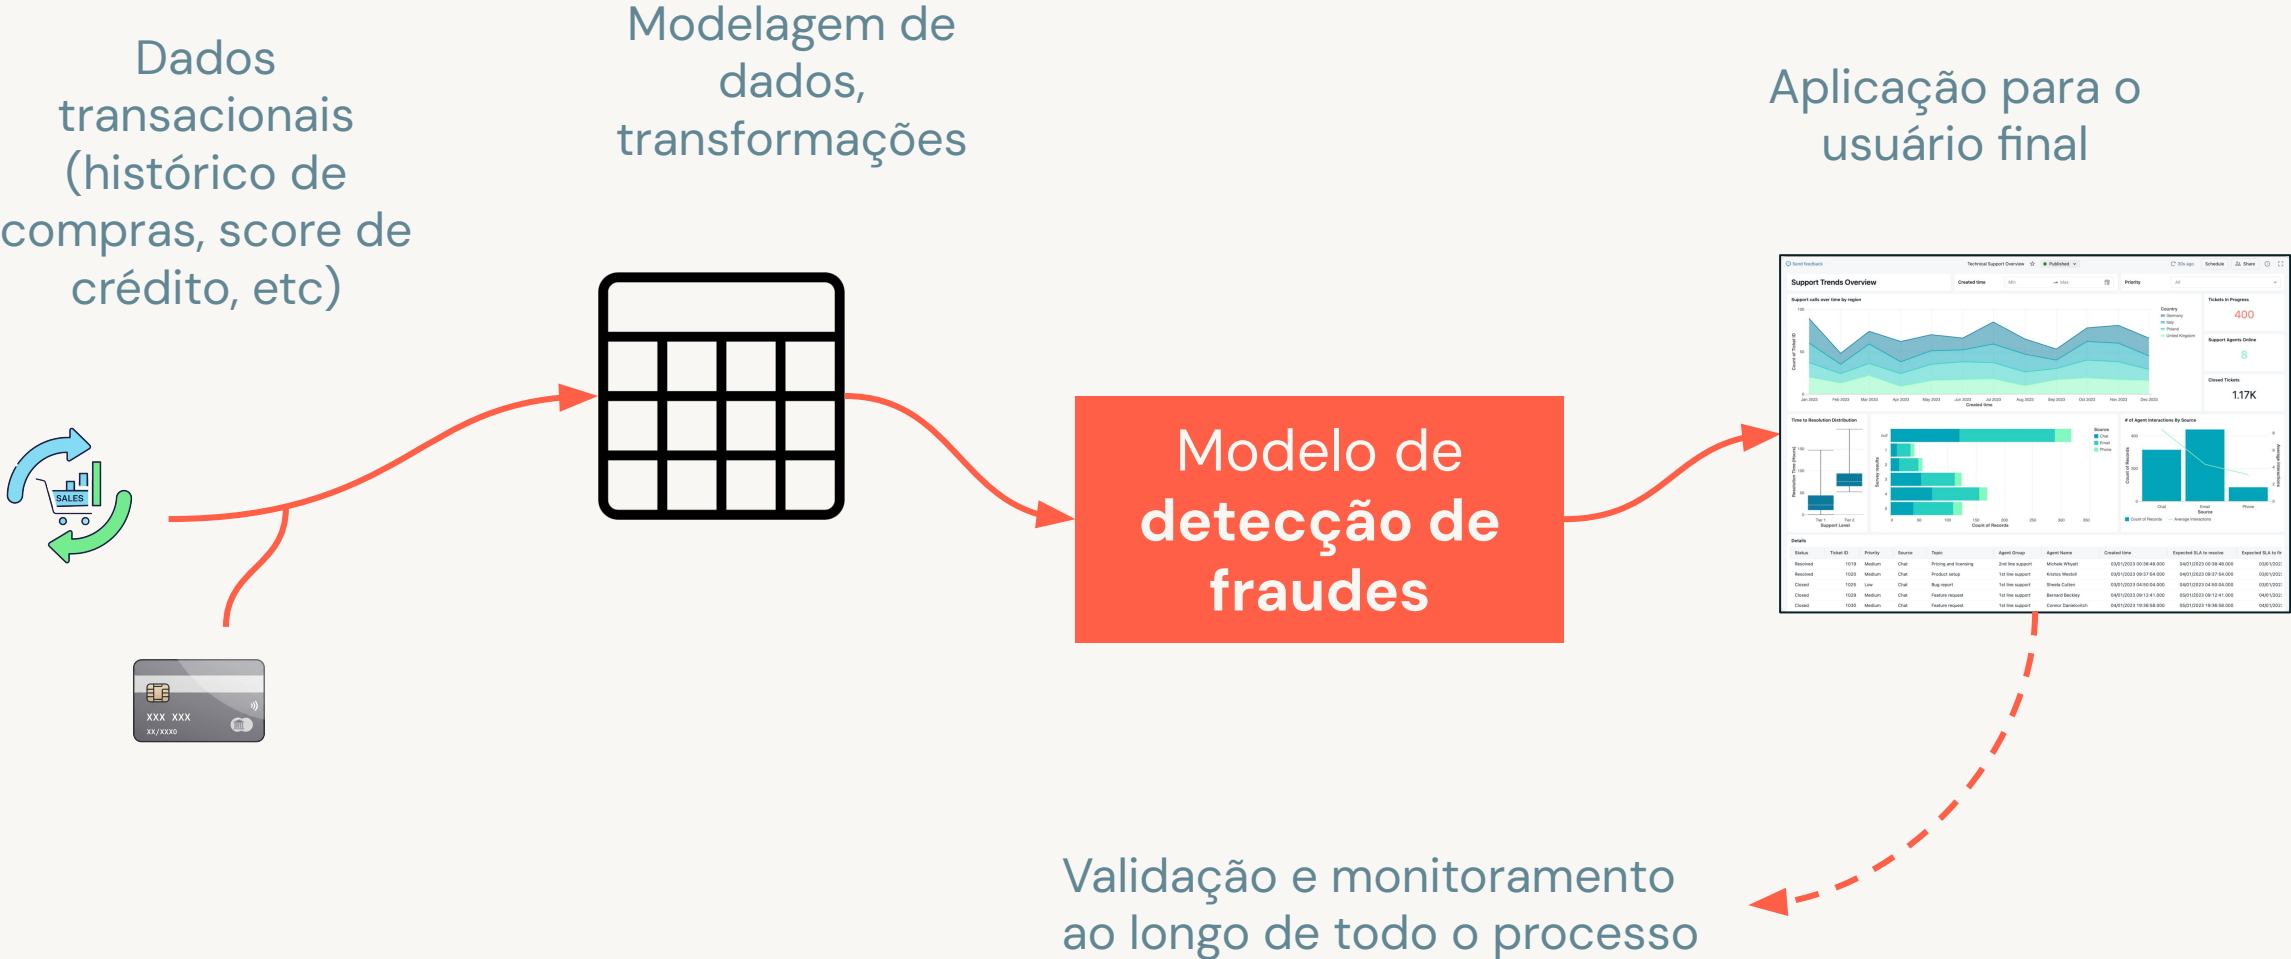

Exemplo prático – Empresa do ramo de telecomunicações

UNITY CATALOG – GOVERNANÇA

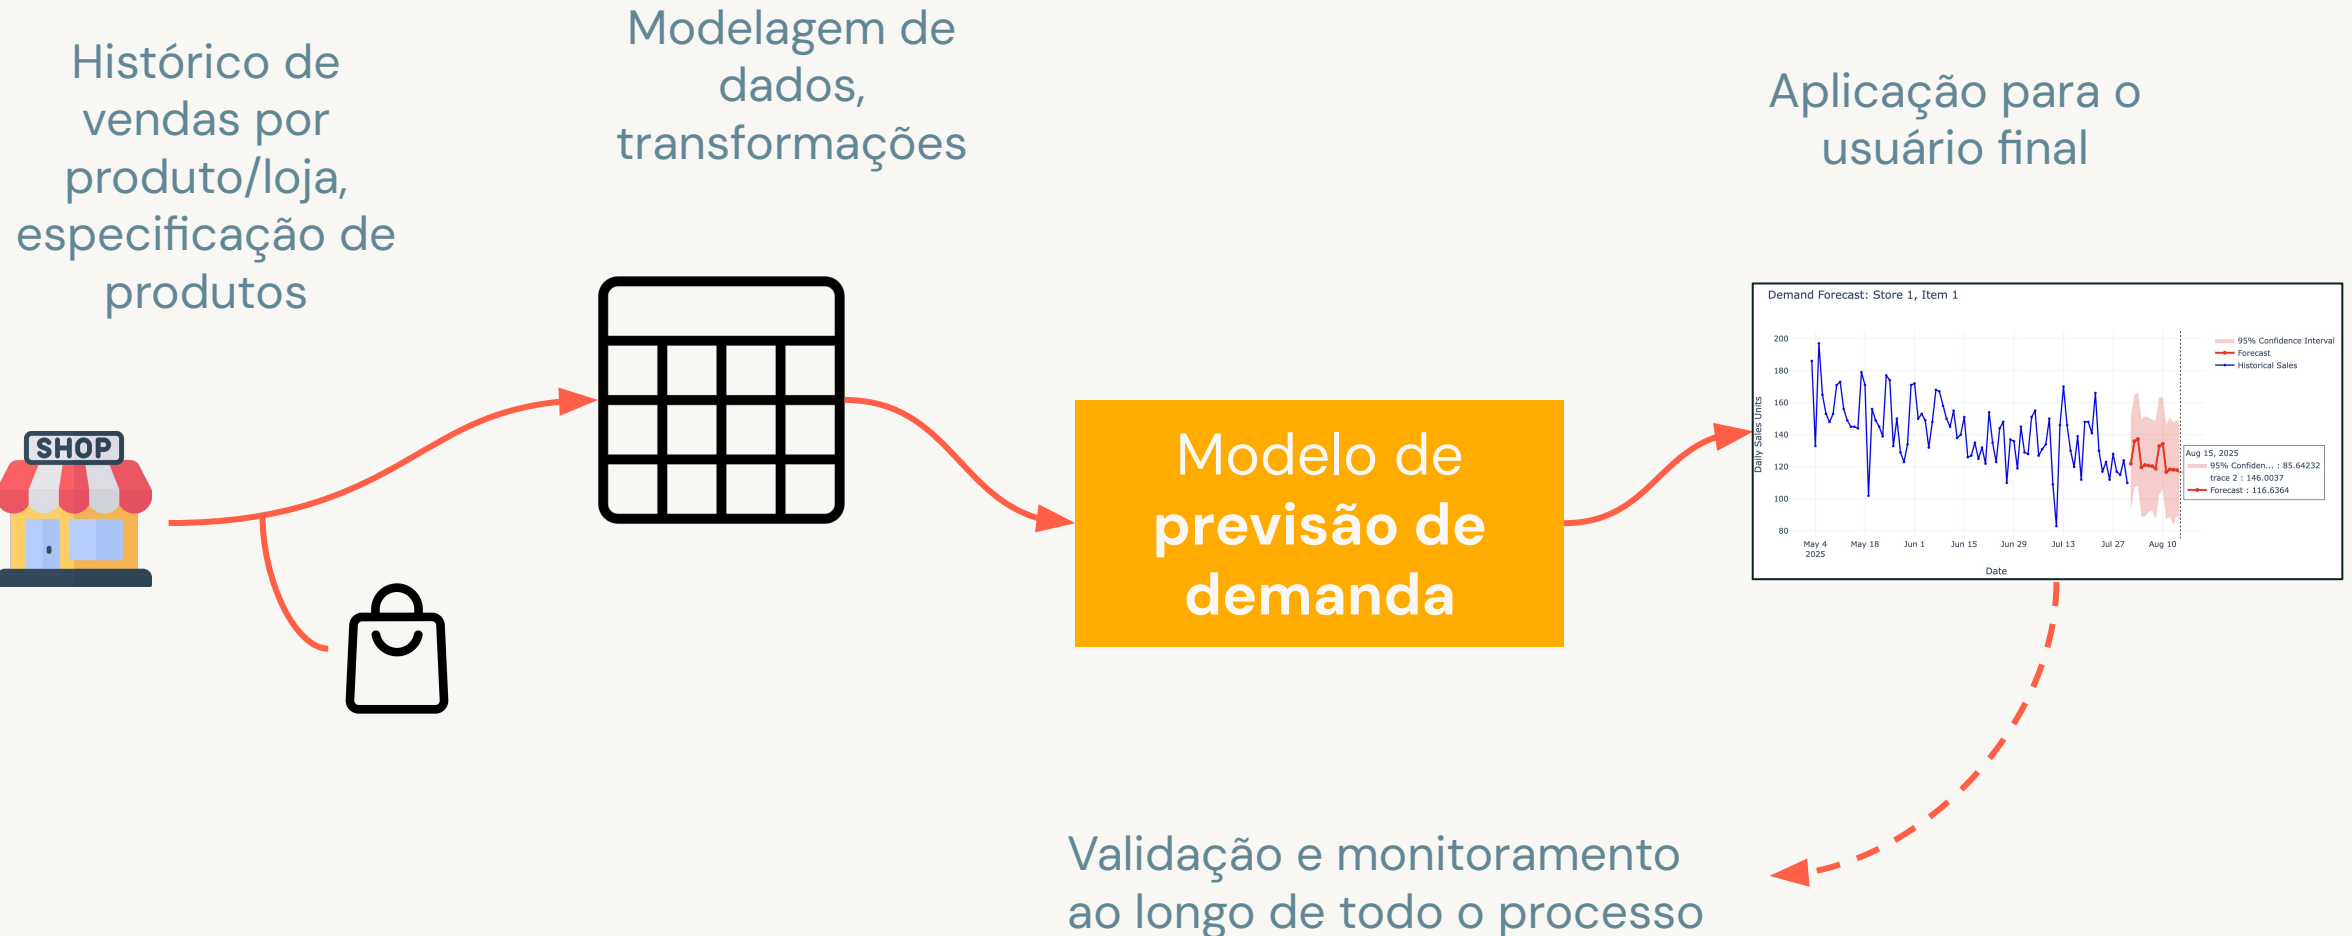

Exemplo prático – Empresa do ramo financeiro

UNITY CATALOG – GOVERNANÇA

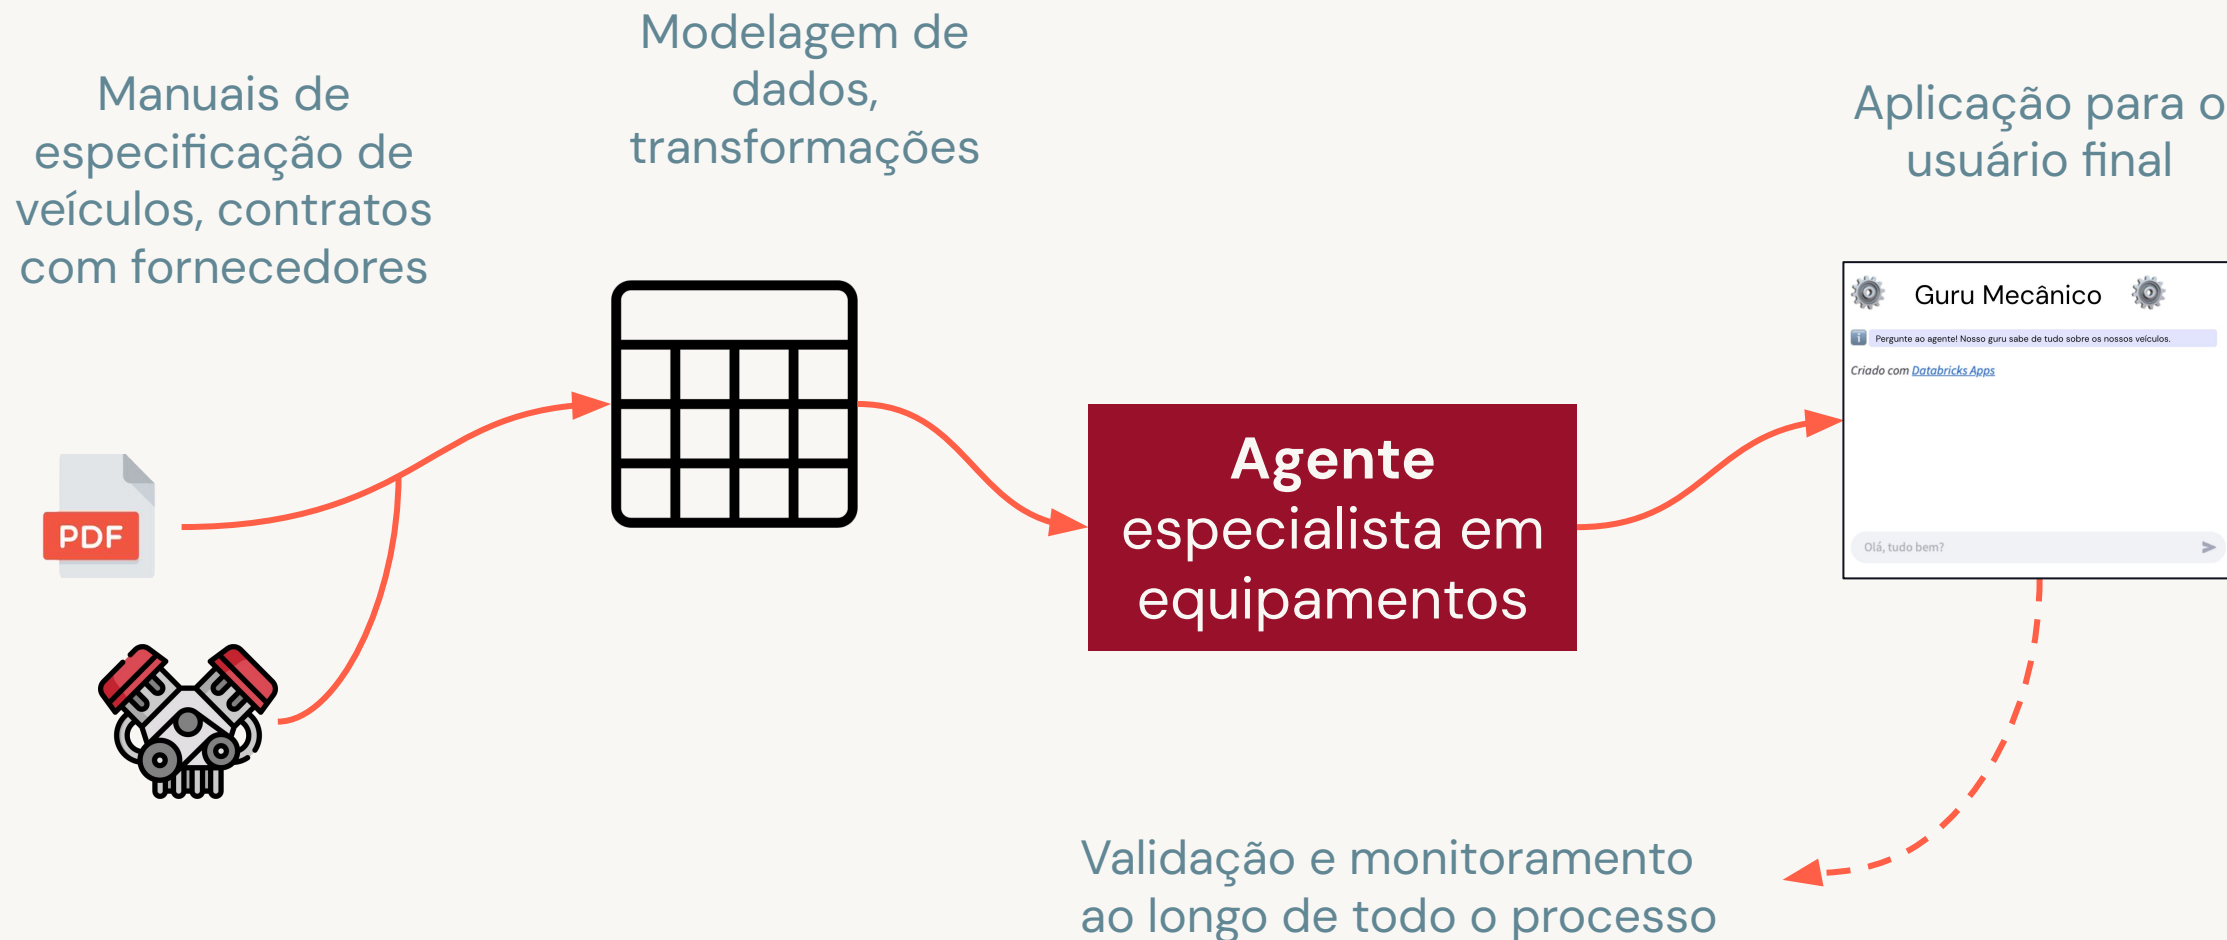

Exemplo prático – Empresa de varejo

UNITY CATALOG – GOVERNANÇA

Exemplo prático – Empresa do ramo automobilístico

UNITY CATALOG – GOVERNANÇA

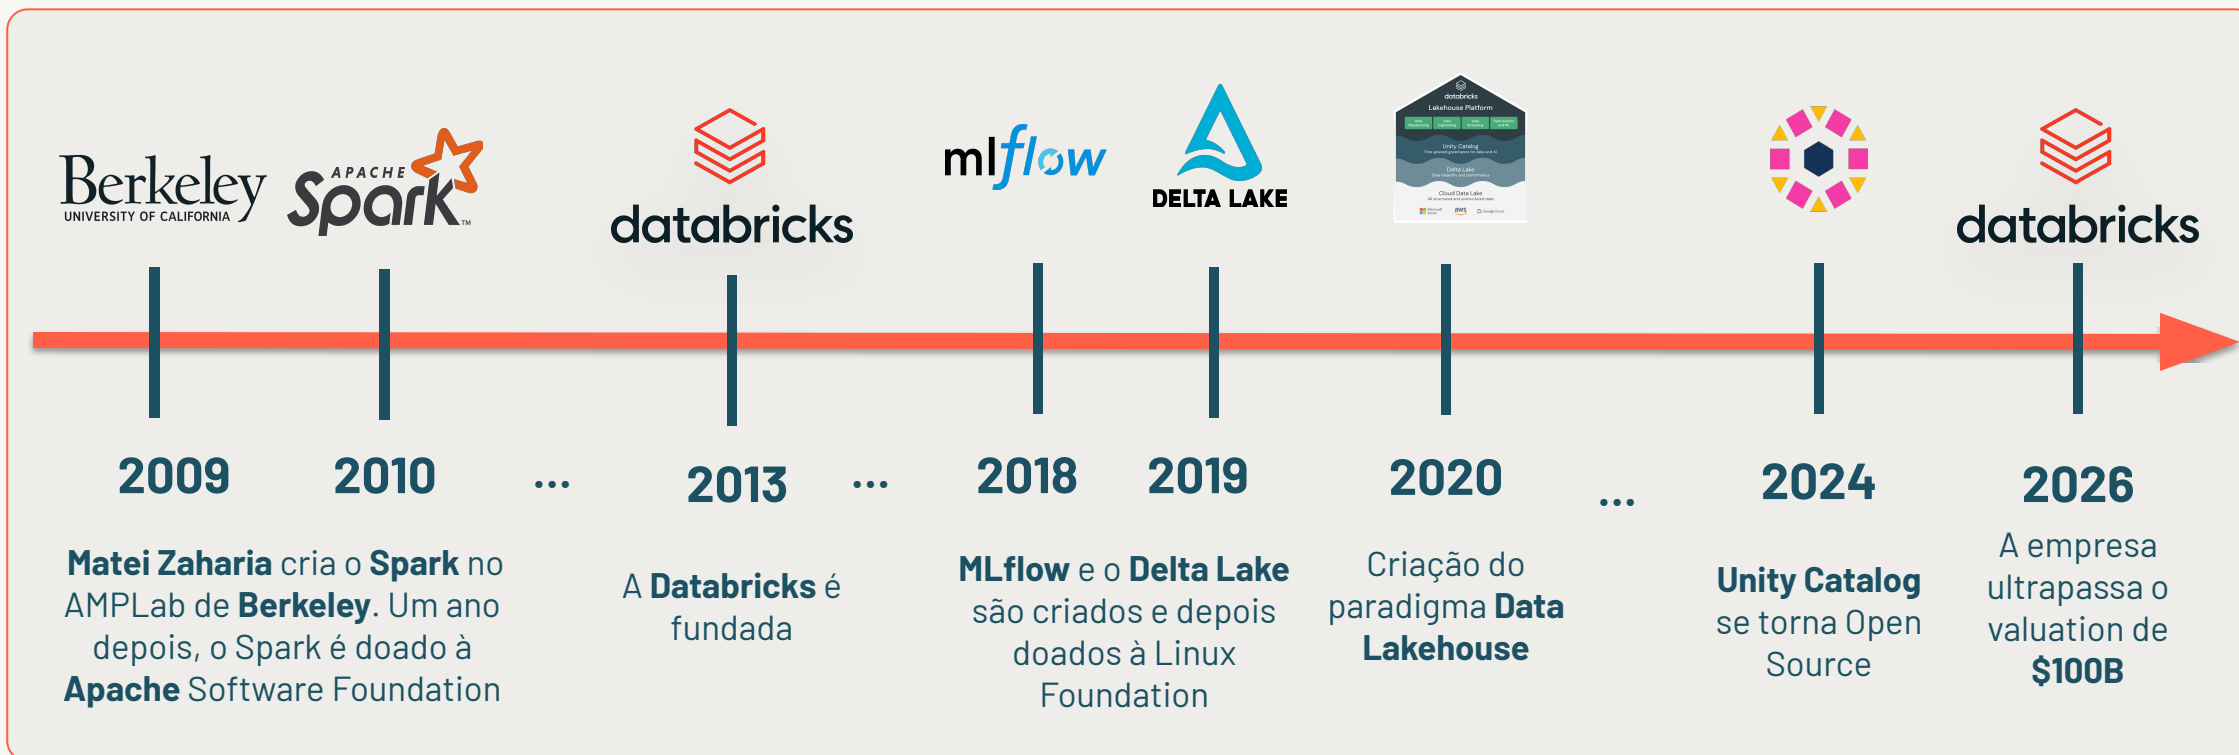

O que é a Databricks?

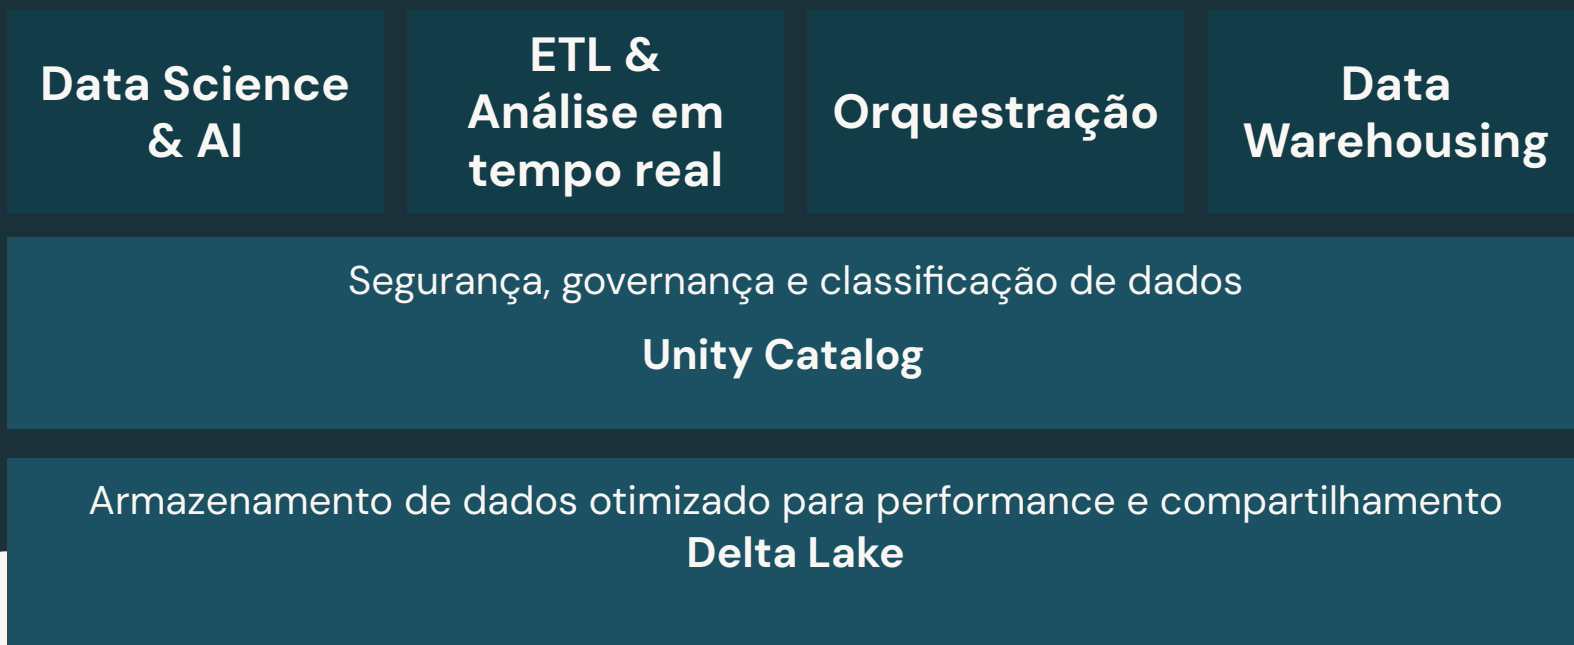

História e contribuição com o cenário de dados Open Source

A empresa contribui e criou alguns dos mais importantes frameworks de dados do mundo

The Data Lakehouse

Uma fundação aberta e unificada para todos os seus dados

Open Data Lake

Dados brutos
(Logs, textos, áudio, vídeo, imagens)

The Data Lakehouse

Uma fundação aberta e unificada para todos os seus dados

Data Science
& AI

ETL &
Análise em
tempo real

Orquestração

Data
Warehousing

Segurança, governança e classificação de dados

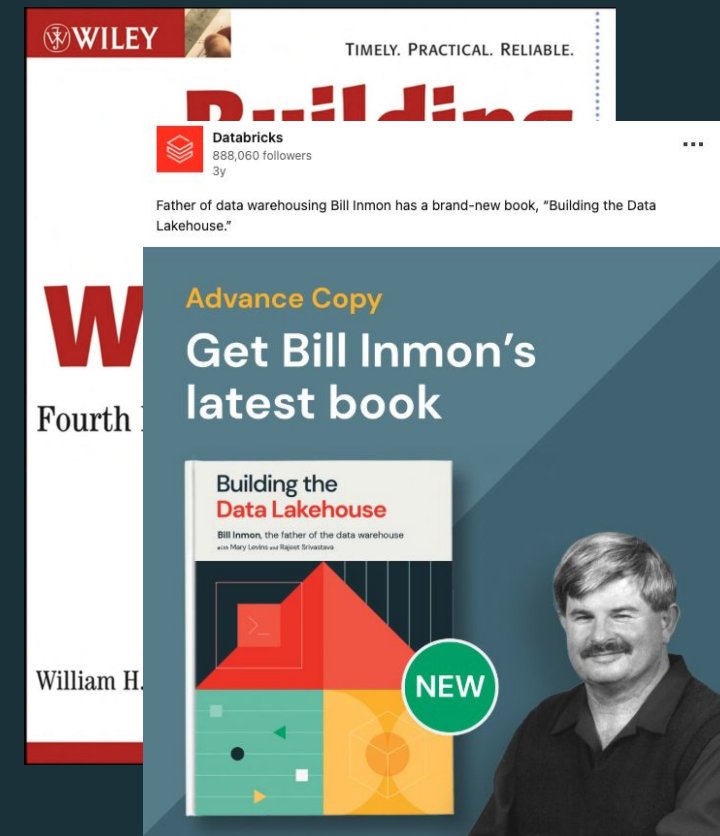

Unity Catalog

Armazenamento de dados otimizado para performance e compartilhamento

Delta Lake

Open Data Lake

Dados brutos
(Logs, textos, áudio, vídeo, imagens)

Plataforma Unificada: Linguagens, IA & Apps

Liberdade & Produtividade no Aprendizado:

</> **Multi-Linguagem Nativo:** Trabalho em

Python

SQL

R

✂ **Assistente de Código (Genie Code):** IA generativa acoplada para acelerar a escrita, explicar conceitos e depurar erros em tempo real.

📊 **AI/BI Dashboards & Apps:** Publicação simples de relatórios interativos e aplicações analíticas para apresentação de trabalhos.

Databricks Marketplace

Bases de dados reais (séries temporais financeiras, dados econômicos e geoespaciais) prontas para uso direto nos exercícios, sem necessidade de ETL prévio.

DEMONSTRAÇÃO AO VIVO

PARTE 1: OVERVIEW DO WORKSPACE

Guia de navegação – PÁGINA INICIAL

The screenshot displays the Databricks Free Edition homepage. On the left is a vertical sidebar with navigation links: New, Home, Learn, Workspace, Recents, Catalog, Jobs & Pipelines, Compute, Discover, Marketplace, SQL, SQL Editor, Queries, Dashboards, Genie Agents, Alerts, Query History, SQL Warehouses, and Data Engineering. The top header includes the Databricks logo, a search bar with the text 'Search data, notebooks, recents, and more...', a workspace dropdown, and a user profile icon. The main content area features a 'Welcome to Databricks' message with a 'Send feedback' link. Below this is a row of five achievement cards: 'Day streak' with a value of 1, 'Courses taken' with a value of 0, 'Data sets created' with a value of 0, 'Friends added' with a value of 0, and 'Achievements' with a value of 0. Further down is a 'Start learning' section with two columns. The 'Courses' column lists 'Databricks Fundamentals' (Beginner), 'Get Started with Data Engineering' (Beginner), and 'Intro to AI/BI' (Intermediate). The 'Interactive demos' column lists 'Clean data with a pipeline' (Build an ETL pipeline to clean bike share data), 'CDC Pipeline With Delta' (CDC flow with Spark API and Delta Lake), and 'Visualize data in a dashboard' (Build a dashboard from bike share data). At the bottom of the main content area is a 'Your resources' section.

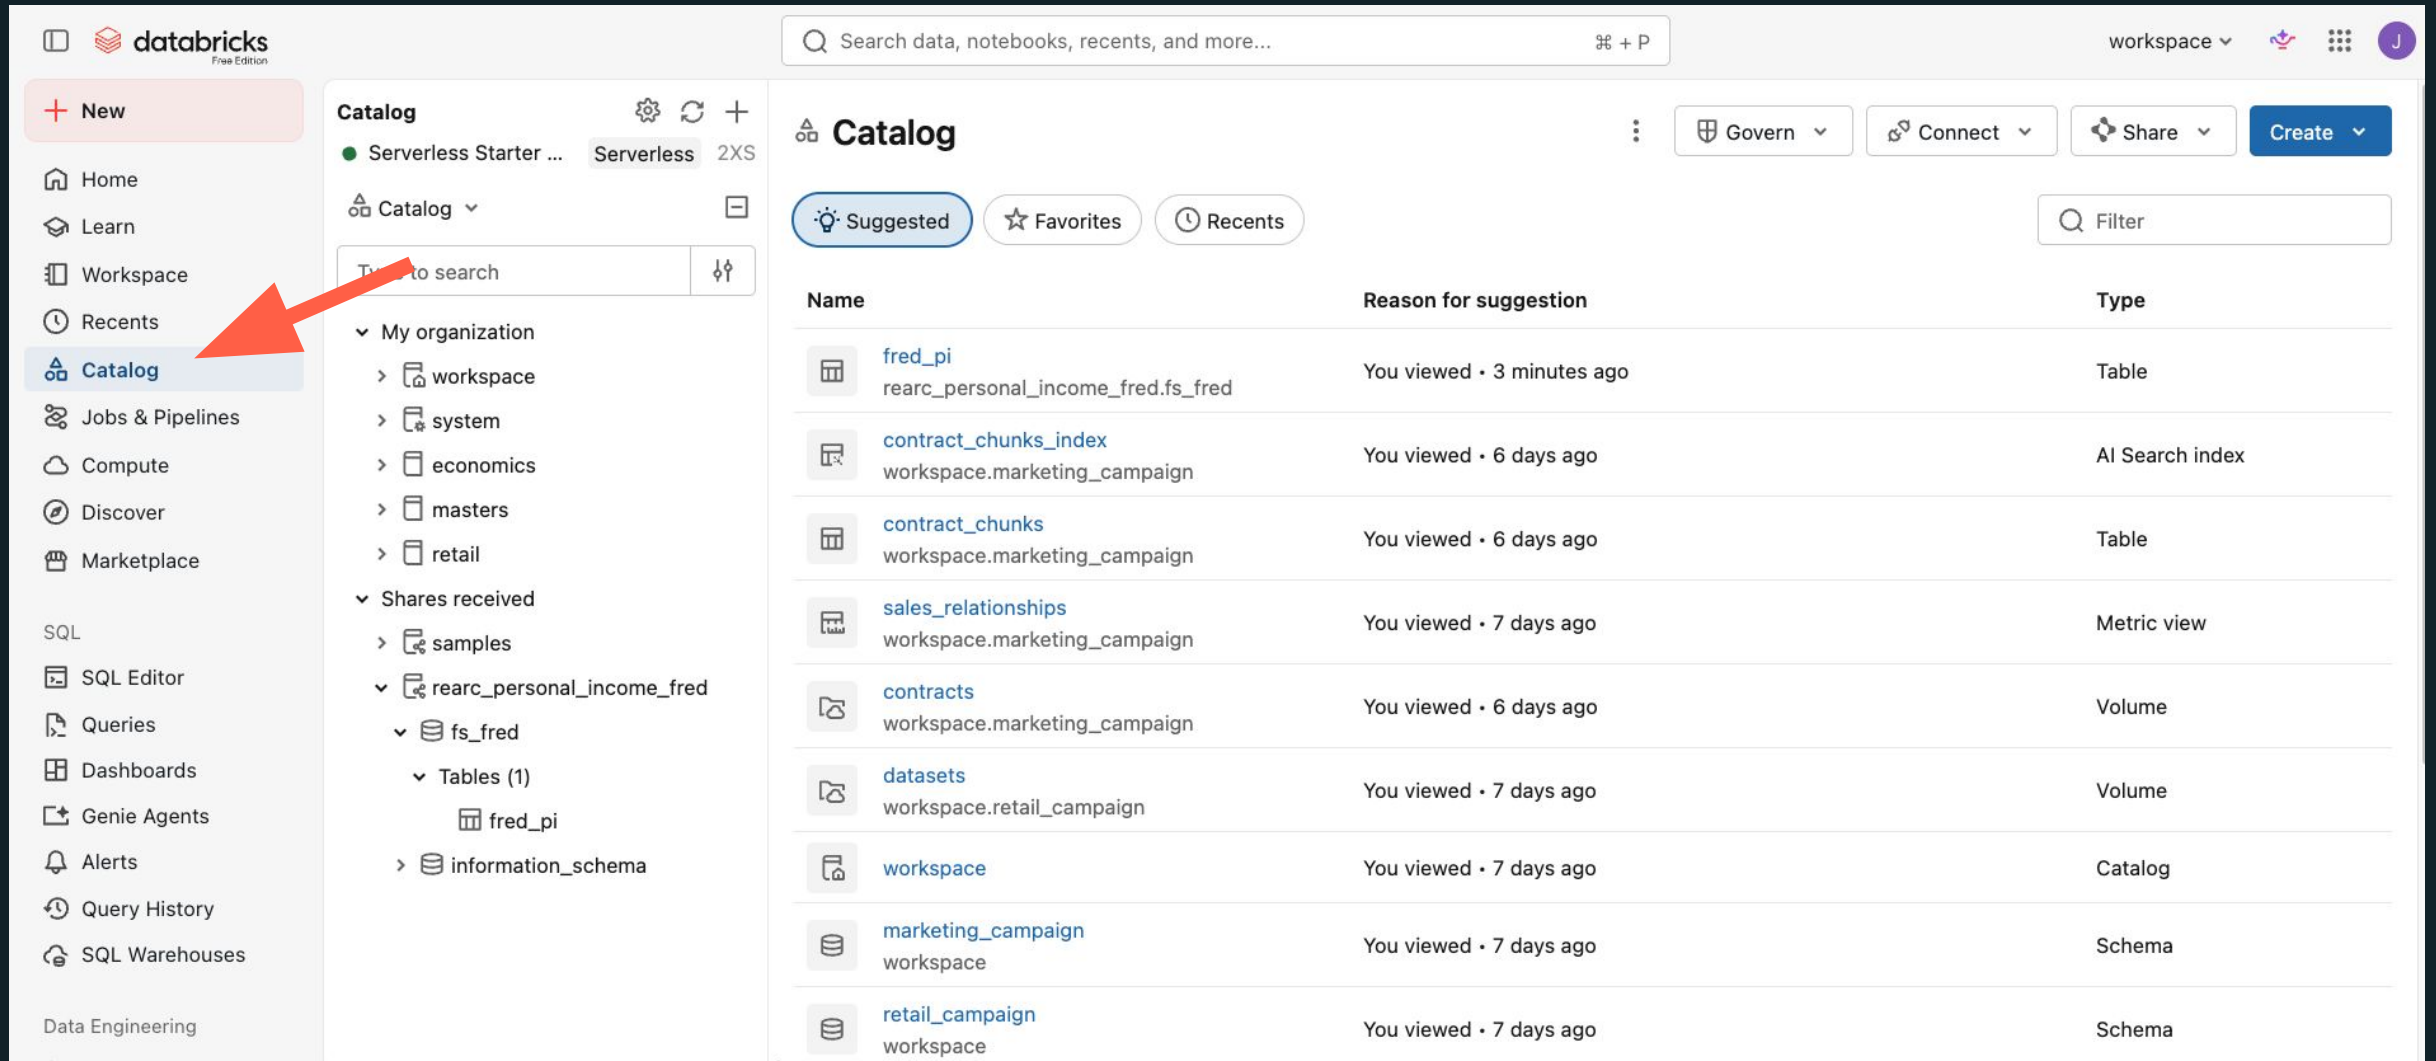

Guia de navegação – ÁREA DE APRENDIZADO

The screenshot displays the Databricks interface, specifically the 'Learn' section. On the left, a sidebar contains navigation links: 'New', 'Home', 'Learn' (highlighted with a red arrow), 'Workspace', 'Recents', 'Catalog', 'Jobs & Pipelines', 'Compute', 'Discover', 'Marketplace', 'SQL', 'SQL Editor', 'Queries', 'Dashboards', 'Genie Agents', 'Alerts', 'Query History', 'SQL Warehouses', 'Data Engineering', and 'Runs'. The main content area is titled 'Learn' and includes a search bar and tabs for 'All', 'Courses', 'Demos', and 'Product Tours'. Below this, the 'Take a course' section features six course cards, each with a progress indicator showing 0% completion:

- Getting started Fundamentals Interactive** (0%)
- Data engineer Get started with data engineering** (0%)
- AI engineer Get started with AI agents** (0%)
- AI engineer Get started with generative AI** (0%)
- Data analyst Get started with analytics & BI** (0%)
- Data engineer Build a data pipeline** (0%)
Create and manage pipelines end-to-end.
- ML practitioner Get started with machine learning** (0%)

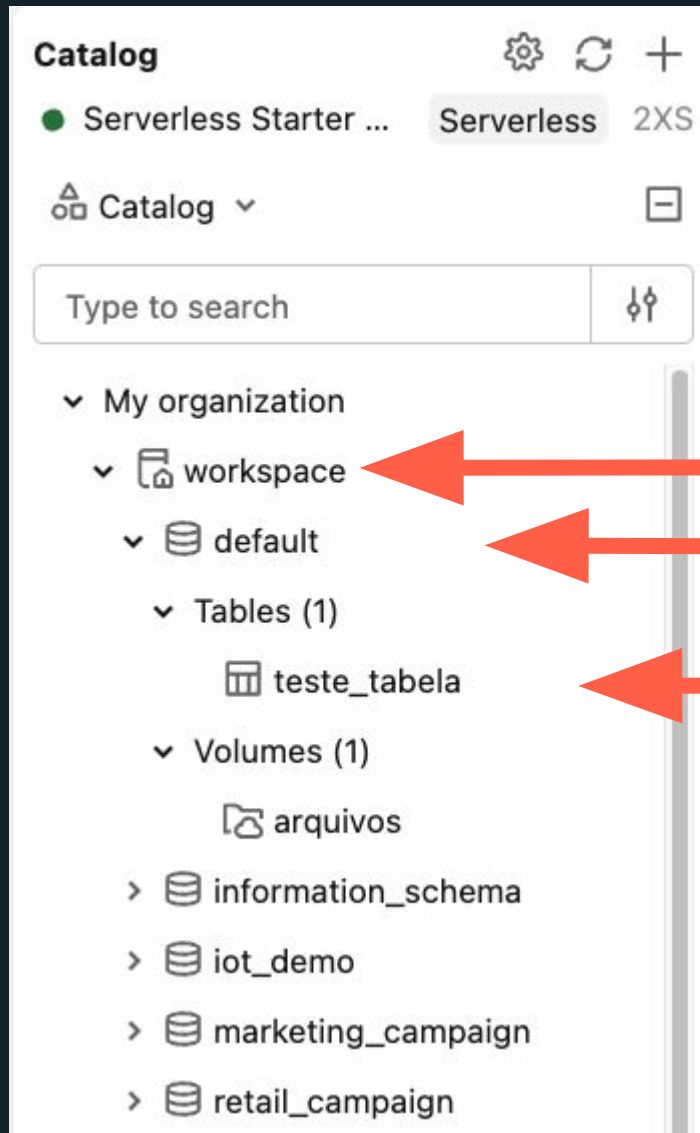

Guia de navegação – CATÁLOGO DE DADOS

The screenshot displays the Databricks Catalog interface. On the left, a sidebar contains navigation links: Home, Learn, Workspace, Recents, Catalog (highlighted with a red arrow), Jobs & Pipelines, Compute, Discover, Marketplace, SQL, SQL Editor, Queries, Dashboards, Genie Agents, Alerts, Query History, SQL Warehouses, and Data Engineering. The main panel is titled 'Catalog' and features a search bar, tabs for 'Suggested', 'Favorites', and 'Recents', and a 'Filter' input. Below these, a table lists suggested data items with columns for Name, Reason for suggestion, and Type.

Name	Reason for suggestion	Type

- VOLUMES (PARA ARQUIVOS)
- (MODELOS, VIEWS, ETC)

Guia de navegação – INGESTÃO MANUAL DE ARQUIVOS

The screenshot shows the Databricks Catalog Explorer interface. On the left, the 'Catalog' sidebar lists various catalogs and volumes. A red arrow points to the 'arquivos' volume under the 'workspace.default' catalog. The main panel displays the 'arquivos' volume details, including a search bar, a table with columns 'Name', 'Size', and 'Last modified', and a message 'No content in volume'. The volume path is '/Volumes/workspace/default/arquivos'. The interface also includes a search bar at the top, a 'New' button, and a 'Share' button.

Guia de navegação – CÓDIGOS NO WORKSPACE

The screenshot shows the Databricks Workspace interface. On the left, a sidebar contains navigation links: New, Home, Learn, Workspace (highlighted), Recents, Catalog, Jobs & Pipelines, Compute, Discover, Marketplace, SQL, SQL Editor, Queries, Dashboards, Genie Agents, Alerts, Query History, and SQL Warehouses. The main area displays the 'Workspace' view for the user 'joaozanlorensi@gmail.com'. A search bar and filters (Type, Owner, Last modified) are at the top. A table lists various folders and notebooks. A red arrow points to the 'Workspace' link in the sidebar, with the text 'PASTA COM CÓDIGOS DO MEU USUÁRIO' below it. Another red arrow points to the 'Workspace' folder in the table. A third red arrow points to the 'Create' button in the top right, with a dropdown menu open showing options like Folder, Git folder, Notebook, File, Query, Dashboard, Genie Agent, Visual data prep, Markdown, ETL Pipeline, Legacy Alert, Alert, and MLflow experiment. The text 'CÓDIGOS EM FORMATO DE NOTEBOOK' is written in red above the dropdown menu.

Guia de navegação – CÓDIGOS NO WORKSPACE

The screenshot shows the Databricks Workspace interface. On the left is a sidebar with navigation links: Home, Learn, Workspace (selected), Recents, Catalog, Jobs & Pipelines, Compute, Discover, Marketplace, SQL, SQL Editor, Queries, Dashboards, Genie Agents, Alerts, Query History, and SQL Warehouses. Below these are Data Engineering, Runs, Data Ingestion, and Visual Data Prep. The main area is divided into three panes. The left pane shows a 'Tree view' of the workspace with a search bar and a list of items including 'AnaliseDeFundos', 'EspecialistaTurbinas', 'Marketing Campaign Analyt...', 'mas-29b371a7-dev-experi...', 'mas-3e46cfd-f-dev-experim...', 'New Dashboard 2025-11-1...', 'New Dashboard 2026-07-1...', 'New Notebook 2026-07-22...', 'New Notebook 2026-07-23...' (highlighted), 'New Space', 'New Space (1)', 'Notebook de testes', 'Retail Campaign Analytics -...', 'Sales and Marketing Campa...', 'Testes', 'Untitled Notebook 2025-10...', 'Untitled Notebook 2025-10...', and 'Untitled Notebook 2025-10...'. The middle pane shows a notebook titled 'New Notebook 2026-07-23 09:59:58' with a 'Python' language selector and a 'Run' button. The right pane shows the 'Genie Code' assistant with the text 'Run multi-step data and AI tasks' and buttons for 'What can Genie Code do?', 'Train a model', and 'Analyze some data'. A search bar at the top right says 'Search data, notebooks, recents, and more...'. A 'workspace' dropdown is also visible.

ARQUIVO QUE
CARREGUEI

The screenshot shows the Databricks workspace interface. On the left, the 'Catalog' sidebar is open, showing a tree view of the workspace. A red arrow points to the file 'quotas_fun...' under the 'arquivos' volume. In the center, a notebook titled 'AnaliseDeFundos' is open, showing Python code that reads a CSV file and displays the first 10 lines. A red arrow points to the notebook title, and another points to the code. On the right, the 'Thoughts' section shows a summary of the data, and a red arrow points to the 'PEDI AO ASSISTENTE (GENIE CODE)' text. Below the code, a table displays the first lines of the CSV file.

```
# Ler o arquivo CSV do Volume
df_quotas = spark.read.csv(
    "/Volumes/workspace/default/arquivos/quotas_fundos.
    csv",
    header=True,
    inferSchema=True
)

# Mostrar as primeiras linhas
print("\nPrimeiras linhas:")
display(df_quotas.limit(10))
```

MEU NOTEBOOK

CARREGOU NO MEU DATABASE

The screenshot displays the Databricks Workspace interface. On the left, the 'Catalog' sidebar shows a tree view with 'My organization' > 'workspace' > 'default' > 'Tables (1)' > 'teste_tabela' highlighted by a red arrow. The central notebook editor shows Python code for generating random data and saving it as a table. The right sidebar shows the 'Genie Assistant' response, which includes a blue box with the user's request, a 'Thoughts' section, and a list of generated data rows.

```
# Gerar dados aleatório:
nomes = ["Ana Silva", "Pedro Costa", "Carla Lima"]

dados = [
    Row(nome=random.choice(nomes), numero=random.randint(1, 100)),
    Row(nome=random.choice(nomes), numero=random.randint(1, 100)),
    Row(nome=random.choice(nomes), numero=random.randint(1, 100))
]

spark.createDataFrame(dados)

# Salvar como tabela
df.write.mode("overwrite").saveAsTable("workspace.default.teste_tabela")

print("Tabela workspace.default.teste_tabela criada com sucesso!")
display(spark.table("workspace.default.teste_tabela"))
```

Thoughts: O usuário está pedindo para: >

Vou criar uma tabela com 3 linhas contendo nomes aleatórios e números aleatórios no seu database workspace.default.

4 steps

Pronto! Criei a tabela `teste_tabela` com 3 linhas contendo nomes aleatórios e números aleatórios.

A tabela contém:

- Carla Lima - 42
- Pedro Costa - 31
- Carla Lima - 48

1 asset

New Notebook 2026-07-22 13:54:10 +20

@ for objects, / for commands, ↑↓ for history

Always review the accuracy of responses.

Guia de navegação – MARKETPLACE DE DADOS

The screenshot displays the Databricks Marketplace interface. On the left, a sidebar contains navigation links: Home, Learn, Workspace, Recents, Catalog, Jobs & Pipelines, Compute, Discover, and Marketplace (highlighted with a red arrow). Below these are sections for SQL (SQL Editor, Queries, Dashboards, Genie Agents, Alerts, Query History, SQL Warehouses), Data Engineering (Runs, Data Ingestion, Visual Data Prep), and a footer with '©2026 Databricks Inc. — All rights reserved'.

The main content area is titled 'Databricks Marketplace' and 'Powered by OpenSharing'. It features a search bar 'Search for products' and filters for 'Product: 1', 'Category', and 'Free' (highlighted with a red arrow). A red arrow points from the text 'TABELAS GRATUITAS' to the 'Free' filter. Below the filters, the text 'Data products' and '866 filtered results' is shown. A 'Sort: Popularity' dropdown is on the right. The products are displayed in a grid, each with a Databricks logo, a 'Free' tag, and a title. The first row includes 'Simulated Retail Customer Data', 'Daily Weather Observations | NOAA', 'Simulated Australia Sales and Opportunities Data', 'Virtue Foundation Dataset (DAIS 2026)', and 'Delta Sharing Egress Pipeline'. The second row includes 'Simulated Canada Sales and Opportunities Data', 'Personal Income | FRED', 'Two Tower Recommendation Model...', 'MOSTLY AI Privacy-Safe Synthetic Data in Unity Catalog for...', and 'Airline Performance Data'.

Parte 2: Compartilhe o recurso que deseja que o outro veja

The screenshot shows the Databricks interface with a modal dialog box titled "Grant on workspace.exercicio_fae.indicadores_macro". The dialog box has two main sections: "Principals" and "Privileges". The "Principals" section has a search bar with the placeholder text "Type to add multiple principals". The "Privileges" section has a list of checkboxes with their descriptions:

- ☐ APPLY TAG gives ability to apply tags to an object
- ☐ MODIFY gives ability to add, delete, and modify data to or from an object
- ☐ SELECT gives read access to an object
- ☐ ALL PRIVILEGES gives all privileges
- ☐ MANAGE gives ownership-like ability for the object, such as managing permissions, dropping, or renaming

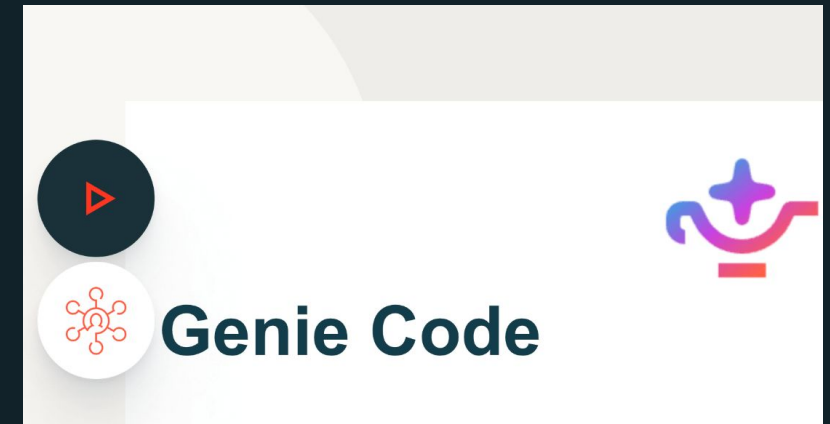

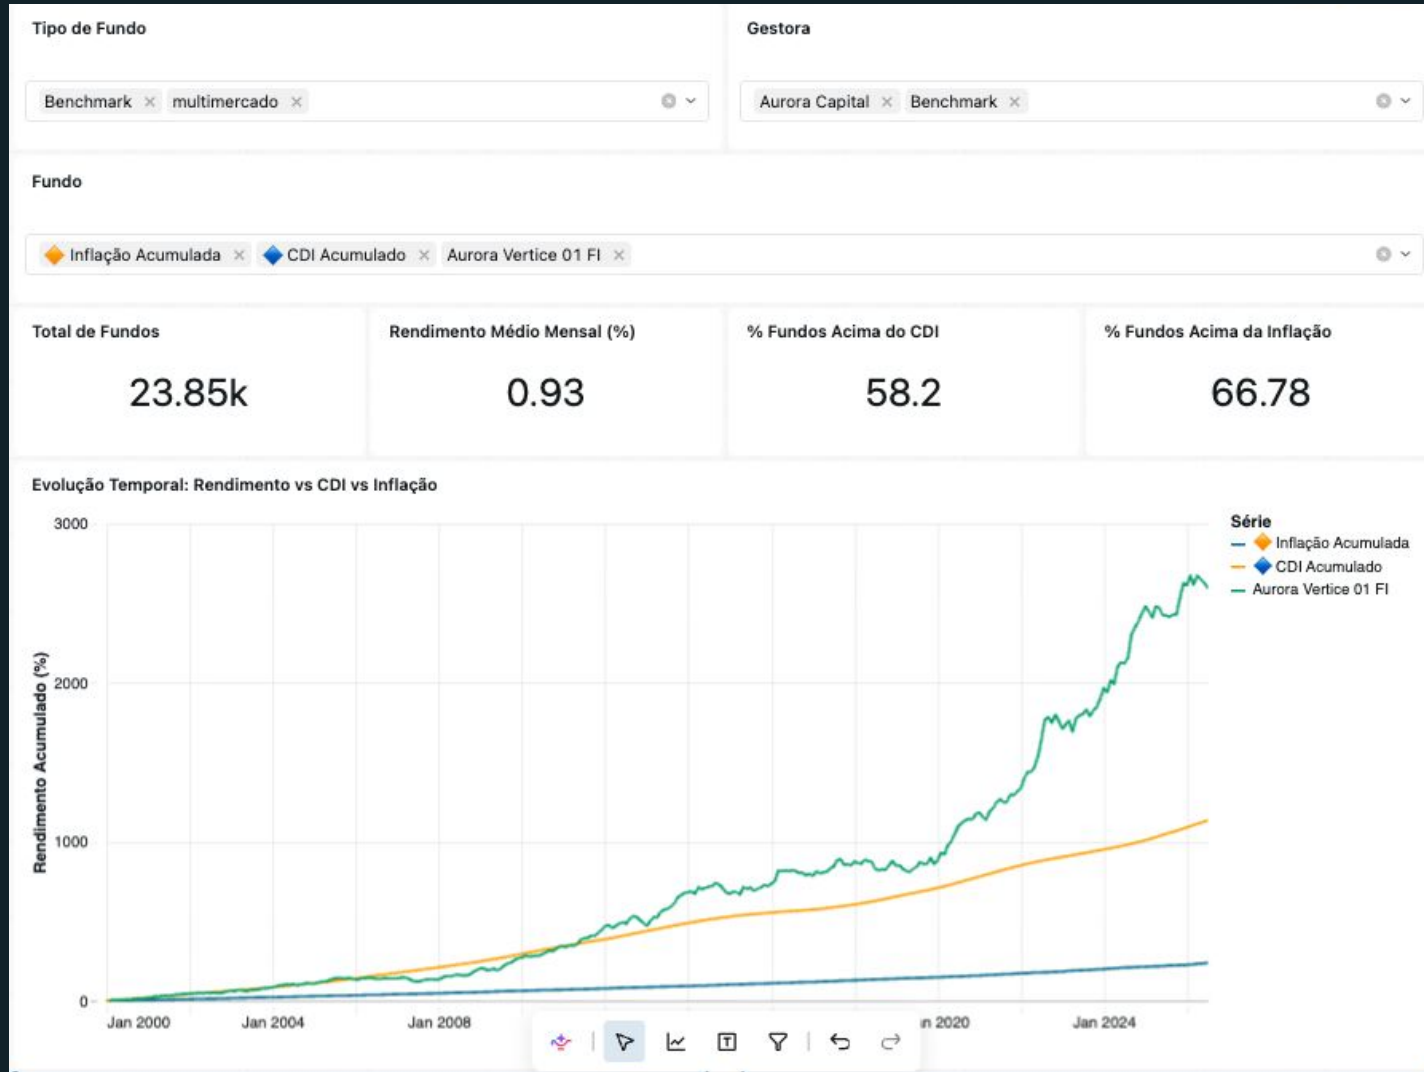

At the bottom of the dialog box are "Cancel" and "Confirm" buttons. In the background, the Databricks interface shows the "Catalog Explorer" with the path "workspace > exercicio_fae > indicadores_macro". The "Share" button in the top right corner of the main interface is highlighted with a red arrow. The "Catalog" menu item in the left sidebar is also highlighted with a red arrow.

Códigos de Referência (exercício resolvido)

The screenshot shows a GitHub repository interface. At the top, the repository name 'workshop-free-edition-educacao-financeira' is displayed as 'Public'. Below this, the user 'pedrozanlorensi' is shown with the commit message 'Update README.md'. The commit hash '8adffcb' and '5 Commits' are also visible. A table lists the repository's structure:

File/Folder	Description	Time
dados	Adiciona estrutura completa do projeto ao repo	8 minutes ago
dashboard	Adiciona estrutura completa do projeto ao repo	8 minutes ago
notebooks	Adiciona estrutura completa do projeto ao repo	8 minutes ago
README.md	Update README.md	now

Below the table, the 'README' section is visible, titled 'Projeto: Análise de Fundos de Investimento'. The text describes the project as an analysis of investment fund performance compared to macroeconomic indicators (CDI, SELIC, and inflation), built using Databricks Free Edition for a financial education workshop. It notes that the data is fictitious and generated synthetically. A section titled 'Desenvolvido com Assistência de IA (Genie Code)' mentions that the project was built from start to finish with strong support from AI assistants.
